SUMMARY

Media Technology student at Hanyang University ERICA (AI & Data Analytics and UI/UX tracks) seeking an internship in data analysis, UI/UX or graphic design. Experience running user surveys and designing web interfaces based on the results.

EDUCATION

Hanyang University ERICA

Bachelor of Science, Division of ICT Convergence, Media Technology Major

Ansan, South Korea

Expected 2028

Tracks: AI & Data Analytics, UI/UX

CGPA: 3.39/4.0

Relevant Coursework: Data Analysis with Statistics, Computer Statistics, Media Infographics, Human-Computer System Design, User Experience and Usability, Emotional UI/UX, Multimedia Content Design

University of Kuala Lumpur (UniKL)

Foundation in Science and Technology for Korean University

Kuala Lumpur, Malaysia

Jul 2022 – Jun 2023

CGPA: 3.87/4.0

PROJECTS

ERICA Nav: Hanyang University ERICA Campus Wayfinding App

May 2026 – Present

Started as a course project · [erica-nav.vercel.app](#)

- Led a 5-person team researching campus navigation problems for international and new students, using a literature review and a survey of 45 respondents
- Defined four design requirements from the results: multilingual search, indoor wayfinding, visual building identification and map integration
- Continued the project after the course and developed a bilingual (English/Korean) web app with a campus map, shuttle bus timetable and class timetable

Bolahh: Futsal Booking & Player Progression Platform

Sep 2026

Team of 4 · [bolahh.com](#)

- Redesigned the player card, including designs for multiple rank tiers, a tilt interaction and a flip side showing player stats
- Designed and built an achievement badge system, storing unlock rules in the database so admins can change them without a code update
- Redesigned the landing page and standardized element and text spacing across site; designed in Figma and implemented in React with Claude Code

Guitar AI Coach: Real-Time AI/ML Guitar Coaching App

Sep 2026 – Present

Capstone project, 6-person team (ongoing)

- Designing the software structure and UI/UX for a planned app that gives guitarists real-time feedback on note accuracy and hand position

SKILLS

Data Analysis: Python, Microsoft Excel, IBM SPSS, survey design

UI/UX & Graphic Design: Figma, Adobe Illustrator, Affinity, Canva, Adobe After Effects

Development: Git, GitHub, Supabase, Vercel, Claude Code (AI-assisted development)

Languages: Malay (Native), English (Fluent), Korean (Limited Conversational)
